

Dear Sir Wilfrid Laurier School Board Family,

Our records indicate that your child's student record does not yet have an associated **Mozaïk Parent Portal** account.

Why is it important to associate your Mozaïk Parent Portal account to your child?

Many schools use the Mozaïk Portal to communicate with the parents. For this reason, parents who do not associate their Mozaïk Parent Portal account to their child will not receive emails from their child's school if the school uses this portal.

What is the Mozaïk Parent Portal?

The Mozaïk Parent Portal is a platform that connects parents with their children's school life. In the portal, parents can view their child's academic progress, schedules (secondary) , report cards, resources, absences/lateness, messages from the school and account statements.

How do you create a Mozaïk Parent Portal account AND associate this account to your child (or children)?

**

Before proceeding:

- Make sure you have provided your email address to the school. Otherwise, please contact the school to ask them to add your email address to your child's student record.
- Make sure that you have the following information on hand: name of the school board, as well as your child's surname, first name, date of birth, record number or permanent code.

**

- Go to the Mozaïk Parent Portal website : <https://portailparents.ca/accueil/en/>.
- Click on the LOG IN button.
- Either click on the CREATE YOUR ACCOUNT link or your preferred SOCIAL MEDIA account.
- The email (or associated email) used to register must be the same email address provided to the school.
- Confirm the identity of the children associated to your account. Your child's surname and first name must be entered as registered with the government (hyphens, accents and spaces).

For more help, please view the [Mozaïk Parent Portal - Account Creation Video Guide](#).

Would you prefer a Mozaïk Parent Portal app?

mParent is the mobile version of the Mozaïk Parent Portal and it is available for both Android and IOS!

- **Access** the Parent Portal in an instant
- **Receive** notifications as per your set preferences (Grades, Statement of accounts, Absences, Message Board)
- **View** your child's message board
